

Lecture 09 — There

Lecture 09 ka main topic **There** hai. Yeh chhota word multiple situations mein use hota hai. Is lecture mein specially woh structure focus kiya gaya hai jahan sentence mein named subject nahi hota aur hum kisi **person, thing, place ya situation ke existence** ko describe karte hain.

LECTURE BLUEPRINT

There → **Present Existence** → **There is / There are**

Object count → **is / are** → **Remaining Part of Sentence (RPS)**

Simple → **Negative** → **Interrogative** → **Interrogative Negative**

10 Verbs → **Hindi** → **English Paragraph Homework**

1. “There” — Basic Idea

Jab hum simply bolte hain **“एक पेन है”**, hum yeh nahi bata rahe ki **यह पेन है**. Hum sirf existence bata rahe hain: **pen hai**. Aise sentence mein lecture ke according **there** ki help li jati hai.

BASIC STRUCTURE

There + is / are + Object

There is a pen.

एक पेन है।

There is a fan.

एक पंखा है।

There is a chair.

एक कुर्सी है।

There are people.

लोग हैं।

2. There — Two Main Situations

Situation 01 — Object is given

Sentence mein named subject nahi hota; hum sirf kisi object/person ke existence ko state karte hain.

Situation 02 — Place + Object

Kisi place/container ke andar ya kisi location par koi object/person present ho.

CORE THOUGHT

“There” sentence ko existence batane ka starting point deta hai. Actual noun/object baad mein aata hai.

3. There Is vs There Are

Present tense mein **there** ke baad **is** ya **are** object ko dekhkar choose kiya jata hai.

Object	Form	Example

Plural / more than one	There are	There are chairs.

GOLDEN RULE

One / Singular → **THERE IS**

More than one / Plural → **THERE ARE**

IMPORTANT DIFFERENCE
